

Microsoft Office[®] 2010 Sneak Peek

Join us as we present an overview of new features and implementation requirements on Microsoft's new version of Microsoft Office.

June 8, 2010
8am-10am

Presented By:

Melanie Gass, President of CenterPoint Solution, LLC

Melanie has been an expert in Microsoft products since 1998, and has helped thousands of employees worldwide learn how to use the computer effectively in their workday. She works with Fortune 100 companies and has trained some of the most powerful people in the world today.

Melanie is also an author of over *ten* Microsoft product reference guides, and creates reference materials for Microsoft's clients, her own clients, and the general public.

Ray Brijmohan, Managing Partner of 2Techs Co, LLC

In 2002, after years of industry experience two IT professionals joined forces to form a company with the belief of offering a higher caliber of service. With a rich history of industry experience under their belts, their customer service focused, client centric business approach is designed to deliver industry proven strategies that work.

We are driven to deliver client-centric customer service, with expert-level technical strategies. We have been providing exceptional IT services to small and medium businesses in and around Metro New York for over 6 years.
