## MICROSOFT® PROJECT® - ADVANCED LEVEL 2007

### *Course Description:*

This course will build upon the knowledge gained, and give you the opportunity to work with a project plan once it reaches the project implementation phase.

### *Who Should Take This Course:*

This course is designed for a person who has an understanding of project management concepts, who is responsible for creating and modifying project plans, and who needs a tool to manage these project plans.

### *Achieved Results:*

You will exchange project plan data with other applications, update project plans, create visual reports, and reuse project plan information.

### *Course Outline:*

- Exchange project plan data with other applications
- Update a project plan
- Manage project costs
- Report project data visually
- Reuse project plan information
